I. Logging in to the ISP module and displaying the ISPs of your PhD students

After logging in to SIS at the following address: <http://www.is.cuni.cz/studium>:

The screenshot shows the SIS Student Information System interface. At the top, the header includes the SIS logo, the text "Student Information System (core version: 2282)", the date "Thursday 4th August 2022", and the user role "Učitel (i pro zápis výsledků a hodnocení PhD studentů), 21". A red box highlights the role selection area. Below the header, the main content area is divided into several sections: Education, Time-table, Admission process, Utils, and Noneducational agenda. A red arrow points to the "Individual curriculum of PhD students" module in the Time-table section. Another red arrow points to the "Subjects" module in the Education section. A red text box on the right side of the Education section contains the following instructions: "1. If you want to display students and their ICs, you must first log in to SIS and then select the role Instructor (even for entering the results and assessments of PhD students)." and "2. Then select the module Individual curriculum of PhD students." The interface also includes a navigation bar at the top with "Text mode" and "Another role" options, and a footer with "59:51" and "Faculty of Arts".

1. If you want to display students and their ICs, you must first log in to SIS and then select the role Instructor (even for entering the results and assessments of PhD students).

2. Then select the module Individual curriculum of PhD students.

In the next image, you can see the continuation of the display of the study plan proposal with the overview of duties. Duties that are mandatory according to the subject-area study plan are entered automatically in the ISP for the student by the system. It is up to the student to modify the study plan and to add optional subjects. For some optional subjects, the student can select the year of fulfilment in agreement with their supervisor.

The individual study plan (ISP) of your PhD student **must correspond to the subject-area plan (SAP)** which can be found at plany.ff.cuni.cz. The menu expands from left to right, so first select *single area of study*, then *PhD studies*, then the respective *programme (area of study)*, and finally the year of admission 2023. Below the table, you will see a link to the SAP file.

Thus, it is your duty to check whether the ISP contains all of the requirements prescribed by the SAP and whether the years of fulfilment are assigned to the individual duties. Also check the topic of the dissertation and its language (in the event of an error in the dissertation, contact the study officer of your programme).

III. Commenting on the proposal/returning the proposal to the student/submitting the proposal to the subject-area board

Below in the details of the study plan in the field *Supervisor action*, there is a drop-down menu where you select what you want to do. There are three options:

1. Comment on the final proposal
2. Return the proposal to the student
3. Forward the study plan proposal to the subject-area board.

The screenshot displays a web interface for 'Plan details - PROPOSAL'. It features several expandable sections, each with a plus sign icon: 'Student:', 'SAB Chair:', 'Supervisor', 'Advisor:', 'Status of plan', 'History of reasons for returning of the proposal of the individual study plan', 'Dissertation and progress on the dissertation', 'State doctoral exam and doctoral dissertation defence', 'Course of study', and 'List of duties'. The 'Supervisor action:' section is expanded, showing a dropdown menu with three options: 'comment on the final proposal', 'send the plan back to student', and 'forward the plan to Subject Area Board'. A 'Go' button is visible next to the dropdown. The footer of the page includes the text 'Charles University | a href="http://www.ff.cuni.cz/home/">Faculty of Science'.

forward the plan to Subject Area Board ▼

is.cuni.cz

Are you sure you wish to submit the plan proposal? No further changes will be possible.

You can forward the curriculum proposal with your completed and saved commentary to the subject-area board even in the step *Supervisor action*, where you select from the drop-down menu *Forward curriculum to subject-area board*. Once you confirm this step, it is final, and the curriculum proposal is sent.
